

Activities Fair Features Twenty Campus Groups

• SECOND-SEMESTER FRESHMEN, incoming students and sophomores will gather on the evening of February 15 to boost the University's varied extra-curricular activities and to initiate the new semester's social dances.

The Freshman Activities Fair, an annual Colonial Program featuring more than twenty campus organizations, will be presented to the student body in Lisner lounge, situated in the basement of Lisner auditorium. All clubs will erect booths in the adjoining Dimock room, where new members will be encouraged to join.

Lenny Metallo, freshman star of the Homecoming variety show, has been selected as emcee of the Fair, which will include skits by such organizations as the HATCHET, the Cherry Tree, the Dance Production Groups and the newly-organized Drama Workshop.

Immediately following the fair, a dance sponsored by the Junior College will be held on the first floor of the Student Union. Tommy Miller's band will provide the music, while talented members of the freshman class will supply the intermission entertainment.

Professors Pick Apple Princess

• THE UNIVERSITY'S 1957 Apple Blossom princess will be selected Sunday afternoon.

Deadline for princess nominees is noon Friday. Campus organizations may submit their candidates' names at the student activities office in the Student Union annex.

The candidates will be judged at a tea from 3 to 5 p.m. Sunday afternoon at Woodhull house. Judges will be Dr. Charles W. Cole, professor of American literature; Dr. Willard E. Caldwell, associate professor of psychology, and Dr. Richard C. Haskett, assistant professor of American history.

The winner will represent the University in the 30th annual Shenandoah Apple Blossom Festival in Winchester, Virginia, in April.

Capers Fete Ten Seniors

• THE NEWMAN CLUB will hold its tenth annual Campus Celebrity Capers in the Starlight room of the George Mason hotel, February 16.

Joe Hince, president of Student Council; Ed Turco, co-chairman of Winter Weekend; Earl Smith, Student Union manager of the Student Council; Bernie Passeltiner, publicity director of the Student Council, and Jerry Reinhardt, business manager of the HATCHET, will be honored at the dance.

Also, Sandy Shoemaker, president of Mortar Board; Ellen Raley Prach, president of WCB; Joan Duke Gates, '55-56 Activities Director; Bev Borden, vice-president of Mortar Board, and Bette Kolonia, chairman of the Queen's Committee for Homecoming.

Applications Now Open For '57-'58 Scholarships

• DEADLINE FOR application for University scholarships is April 1, according to Dean Burnice H. Jarman, chairman of the committee on scholarships. Application forms are available in the office of summer sessions in building T.

Students are eligible for a scholarship only after having established an academic record at the University with a minimum overall quality point index of 3.00, scholarship regulations state. Veterans receiving government scholarship aid and married students are not eligible.

Scholarship holders must carry a full schedule of academic work,

'Mousetrap' Tryouts

• THE UNIVERSITY Players will hold tryouts for their next production, Agatha Christie's "Mousetrap," from 7 to 10 p.m. tonight in Lisner auditorium.

Annual Warns 25 Delinquents

• TWENTY-FIVE UNIVERSITY organizations have not completed the terms of their contracts for space in the 1957 Cherry Tree, the yearbook business manager announced yesterday.

Deadline for payments for Cherry Tree space is this Friday. Groups who have not paid by Friday will not be included in the yearbook.

The delinquent organizations are Alpha Delta Pi, Alpha Zeta Omega, the Case club, Delta Theta Pi, the Engineers' Council, the Law Review, the Glee club and the Hillel Foundation.

Also the International Relations club, the International Students' society, Iota Sigma Pi, Kappa Alpha, Kappa Delta, Kappa Psi, the Order of the Coif, Phi Beta Kappa and Phi Delta Phi.

Also Phi Delta Gamma, Phi Sigma Sigma, Psi Chi, the Sailing association, Sigma Alpha Eta, the Student Bar association, the Legal Aid society, and the Women's Athletic association.

fifteen semester hours, or, in the professional schools, the full prescribed schedule. Scholarships are awarded for both the fall and spring semesters and are credited in equal parts for each semester. They may be renewed upon application.

Information concerning financial aid is found in the University catalogue.

Also available are the Anna Bartsch scholarship, \$500, for a woman in the School of Medicine, and the Emma K. Carr scholarships, six of \$400 each and ten of \$100 each, for young men in undergraduate or postgraduate work. Other scholarships are listed in the catalogue.

Dance Highlights Winter Weekend

by Elaine Mosel

• THE MARDI GRAS spirit of old New Orleans will prevail at the second annual Winter Weekend costume ball.

The dance, to be held Friday night from 9 p.m. to midnight at the Kensington Armory, will feature the coronation of a king and queen of the Mardi Gras, chosen as the best costumed couple. Trophies will be awarded to both. Souvenir masks and set-ups will be sold.

Depts. Offer New Courses

• THE UNIVERSITY HAS announced a number of new courses to be offered this semester.

The art department is offering Renaissance Art in the North and Primitive Art. The latter course has been expanded to include, in addition to African and Oceanian art, a study of pre-Columbian art of North and South America, taking in the Incas and Aztecs.

In the department of history, The West, as it concerns the role of the frontier in American history, is being presented for the first time. Dr. Myron L. Koenig, professor of American history, who returned to the University last fall after two years as cultural attaché at the United States Embassy in London, teaches the course.

In the newly re-established department of geology, Dr. Geza Teleki, a Hungarian expatriate who studied at the Technical University of Budapest and the Universities of Vienna and Zürich, teaches Structural Geology. Dr. Howard Evans of the United States Geological Survey teaches Crystal Chemistry.

Public Administration

Planning and Administering the Fiscal Program, a new course offered by the Department of Public Administration, is taught by John Provan, member of the management staff in the office of the Secretary of Defense. Case

Airline Grant

• AMERICAN AIRLINES has given a \$1000 grant to the University endowment fund, the University announced last Friday. Herbert D. Ford, district sales manager for American Airlines, made the presentation for the company. Dr. Cloyd H. Marvin, president of the University, accepted the gift.

Studies in Administration is also offered for the first time. Dr. A. G. Obern is the instructor.

A seminar, Medical Backgrounds for Rehabilitation Counseling, is a new course in the department of psychology. Dr. Josephine Buchanan, director of physical medicine at the D. C. General Hospital, is guest lecturer for the seminar. The failures of adjustment and the problems of prevention of failure will be examined in another seminar, Psychology of the Handicapped, Dynamics of Adjustment.

Spanish Readings

Spanish Readings for Non-major students is being offered for the first time by the department of romance languages. This course is designed to teach graduate students to read Spanish for the master's degree reading examination.

Marketing Problems and Traffic Management and Warehousing are new courses in business administration. A seminar in Anthropological Theory is a new offering in the sociology department, as is a course in Culture and Personality.

Jazz Concert

The jazz concert, with music provided by a group of well-known jazz musicians from the Washington area, is scheduled for Saturday from 1 to 4 p.m. at the Bayou in Georgetown. Beverages will be sold at a student rate.

Saturday night at 8:15 the Colonials will meet William and Mary on the basketball court at Uline arena. First place winners in the house decoration contests will receive trophies at halftime. Second and third place winners will receive Booster points.

Tickets for Winter Weekend will be on sale from noon to 1 p.m. and from 5 to 6 p.m. this week in the Student Union lobby. Admission to the entire week end is \$3.00 per couple. Tickets are included in the Campus Combo.

Winter Weekend co-chairmen are Meredith Eagon and Ed Turco. Working with them are Cece Le Sturgeon and Robin Rule, publicity chairmen; Paul Garner, jazz concert chairman; Phyllis Mignone, Mardi Gras ball chairman; Earl Smith, house decorations chairman, and Mel Martin, ticket sales chairman.

Private Exhibition Honors Portrayer

• A PRIVATE SHOWING and reception in honor of Louis Crespo, portrayer of many of Washington's governmental, social and international figures, marked the opening of the February exhibition of his works at the University library last Saturday.

Several hundred friends of the artists and of the University were guests of University librarian and curator of art John Russell Mason and Mr. and Mrs. Crespo.

The exhibit includes portraits of the Hon. Christian Herter, former Governor of Massachusetts and now Undersecretary of State; Senor Don Fernando Berckmeyer, Ambassador to the United States from Peru; Dr. Henry G. Doyle, Dean of the University's Columbian College; Dr. Alberto Lleras-Camargo, former President of Colombia, former president of the Organization of American States and now president of the University of the Andes in Colombia; and Senora Dona Sara Cordero de Quintanilla, wife of the Mexican ambassador to the Organization of American States.

The annual February exhibition of "George Washington, the Man," from the University's extensive collection of Washington papers, pictures, books and memorabilia, will also be on view.

The public exhibition of both the Crespo and the Washington show will run through the end of the month.

16 'Brains' Make Phi Beta Kappa

• A HOMECOMING QUEEN, a former U. S. Marine Corps staff sergeant and an electronic technician for the Naval Research Laboratory are among the sixteen University students who have been named to Phi Beta Kappa, national collegiate honorary recognizing "outstanding intellectual capacity well employed" in the field of liberal arts and sciences.

The group includes Suzanne Bregman, 1955 Homecoming Queen of the University and vice president of the Enosian Debating society; Derek Von Roemer, a former Marine, a junior majoring in psychology, a part-time cab driver, president of Tau Kappa Epsilon fraternity and a member of the Order of Scarlet, men's honorary; and Christine E. Bishop, the electronic technician, a physics major and member of Sigma Pi Sigma a national physics honorary.

ODK Member

Walter L. Baumann is winner of the Charles Worthington Dorsey memorial scholarship to the University Law School. He is a member of Omicron Delta Kappa, men's leadership honorary, Alpha Theta Nu, scholarship holders' service organization, and Phi Eta Sigma, freshman men's honorary.

Two holders of Emma K. Carr scholarships at the University are among the new members. John Canfield, a senior majoring in philosophy and a research assistant for the National Research

Council, is president of Phi Sigma Rho philosophical society. Alan D. Mighell, a senior in chemistry and a member of the Chemistry club, intends to continue his studies at the University Medical School.

Bernhard Tittman, born in Moshi, Tanganyika, East Africa, and James Chase Tyler, a native of Shanghai, China, also plan to work for doctor's degrees. Mr. Tittman is treasurer of the Chemistry club and historian of Phi Eta Sigma. Mr. Tyler is an aid in the fish and wildlife service of the Smithsonian Institution.

Sandra Shoemaker, president of Mortar Board, senior women's honorary, is assistant to the resident director of the Freshman Club, women's dorm. She is president of Delphi, sorority women's honorary; vice president of Big Sisters, women's orientation group and Columbian College representative to the Student Council.

Hatchet Editor

Roberta Holland is secretary of Mortar Board and a member of the HATCHET board of editors.

Harold Floyd, a member of Phi Eta Sigma, plans to be a physician. Joyce Marie Gray is a student assistant in economics at the University. She is senior adviser to Alpha Lambda Delta and vice president and treasurer of Delta Zeta sorority.

Develop & Extend Your Capabilities

—At APL Where a Unique Combination of Industrial and Academic Approaches is Applied to R & D Problems—

The Applied Physics Laboratory (APL) of The Johns Hopkins University, one of the country's leading R & D organizations, affords young men of above-average skill and originality unusual opportunities for rapid progress toward (1) professional specialization, or (2) technical administration or operations.

APL is unique in that it is neither an industrial nor an academic organization. Instead it is a composite of both, having drawn freely from the methodologies of each. Because of this, APL has managed to keep in the vanguard, having pioneered the proximity fuze, the first supersonic ramjet engine, and the missiles TERRIER, TALOS and TARTAR. APL has sole responsibility for the Navy's Bumblebee guided missile program, directs the work of 21

associate and sub-contractors, among them leading universities and industrial organizations.

Location & Facilities

As a result its staff members enjoy an interchange of ideas with members of these various organizations; have access to their facilities, in addition to the wealth of equipment available at APL's 350,000-sq. ft. laboratories midway between Washington, D. C. and Baltimore, and in Silver Spring, Md. In this environment men of originality and talent flourish. Salaries compare favorably with those of other R & D organizations; staff benefits are manifold, including a strong program of financial assistance for graduate work. Annual Alumni Fund Names '57 Chairman

• FRANK H. WEITZEL, Assistant Comptroller General of the United States, has been named national chairman of the University's 1957 Alumni Fund, sponsored by the General Alumni Association.

The fund is an annual solicitation conducted among nearly 30,000 University graduates all over the world. Particular emphasis is placed on the Washington area, where nearly 1,000 alumni workers will conduct a personal campaign among their fellow graduates.

The campaign opens Thursday and closes April 30. Last year over \$20,000 was collected from more than 2,000 alumni.

Mr. Weitzel received the degree of bachelor of arts, with high distinction, from the University in 1931, and the degree of bachelor of laws, with distinction, in 1935.

The New Semester

• WITH THE WINTER WEEKEND this Friday and Saturday nights, the spring semester gets under way. There are events scheduled for each week that should please every student at the University. They range from the Mortar Board Last Lectures and Colonial Program Series to the Colonial Cruise. Unfortunately many of these events are very poorly attended.

Every item on the University calendar represents a lot of work by members of the Student Council, private groups, and Student Council committee chairman. Students, and frequently, faculty members work long hours over periods of several months arranging dances like the Mardi Gras Ball, the Celebrity Capers, the Hillel Ball o' Fire, and the Engineers Ball and Banquet. Every one of these dances can be attended by any University student. Students and faculty work just as hard preparing lectures, concerts and plays, which every student may attend either free of charge or for a nominal fee.

It is up to every student to see that the activities scheduled for this semester are kept on the calendar. We must prove that we want dances, concerts, lectures and plays at our University. Certainly, one of the most frequent complaints about the University is that it is a city college and as such does not have the campus life or the school spirit that a state university or Ivy League school has. School spirit can only be generated by the student body. The campus life is here. All we have to do is take advantage of the many and varied events offered us this semester. It is up to each one of us to go to the Activities Fair, the drama productions, the concerts and the dances.

Begin the semester the right way. Go to the Winter Weekend. There is something offered to interest every person from the jazz concert at the Bayou to the game and the Mardi Gras Ball. We know you will enjoy the Weekend and, furthermore, you will be proving that we do want a full calendar of events for the Spring semester. But don't stop with the Winter Weekend—Remember the Activities Fair, Mousetrap and the Colonial Cruise, too.

The Editors' Desk

by Ernest Auerbach
PIN CRAZY

• "I THINK THAT your fraternity pin is just the most beautiful thing in the whole world," cooed the darling Southern gal. "Look, Alfie, how tonight's moon resembles the glowing crescent on your chest."

Alfie viewed with pride the badge over his heart. Then he rebuttoned his jacket and walked over to the rose trellise behind Lisner auditorium. The moonlight fell upon the dewy grass and bounced off in galaxies of diamonds sparkling in the night.

"Isn't it romantic out, Alfie?" Anna Belle snuggled against him. "Look how that bright star seems to be kissing the moon. Just like your pin, isn't it, Alfie?"

"Yup."

"Alfie, is it true that the boys in your house wear their pins on their pajamas. If I had one—I would. The moon would never sink, nor the stars go out, if . . ."

"It's not a moon, it's a crescent. Don't you think it's getting chilly? I mean we better go in now, all right?"

Anna Belle rubbed her soft, cool cheek against Alfie's. "How can you be cold with that wonderful pin sending its fraternal warmth through you? But, Alfie, honest, I'm freezing honest."

"Want my jacket?"

"No, Alfie, it's not your jacket. It's hard for me to explain just what," Anna Belle said, fingering his pin.

"I understand," said Alfie, seeing the true significance of her actions. "It's my pin you're after."

Gently he took her arm—and broke it at the wrist. "Never do that again," he said.

Tom Miller's Versatile Musicians Play for Union Dances and USO

by Gregg Mayer

• ANYONE NOTING THE success of the last few social dances in the Union will usually be heard to remark on the fine sounding music of the band. Though the group has been together for only two years, the Esquires of Rhythm are progressing rapidly in the standards of good jazz. The members include Tom Miller, trumpet player and leader of the band; Pat Miller, piano; Jim Erving, bass; Arnold Grindberg, drum; and Gene Roberts, guitar. There are other

members and, if there is a need, as many as 15 musicians will be playing at one performance.

Busy Around Clock

The group plays for college dances and shows; their music consists of dance tunes and jazz. The men are government workers during the day and keep very busy around the clock. Gene, the guitarist, is a chemist and builds his own electrical equipment. Pat, who is the bandleader's wife, had her own radio show in Pennsylvania. The band plays for the USO every Saturday night and is also scheduled to play for the "Heartbeat Hop," the next Union dance, on February 15.

Hailing from Sunbury, Pennsylvania, Tom played trumpet in his high school band and joined the Air Force in '49, where he played in a 20-piece concert and dance band. He formed his own group while in the service, appearing on television and radio. Uncle Sam supplied teachers and professional musicians to teach the men about

harmony, arranging and other technicalities of music, which prepared Tom for similar courses at the University of North Carolina. He has appeared briefly with Billy Mays and Tony Pastor. Now, in addition to working with his group, Tom is taking a business administration course at the University.

Pat and Tom have been married for two and a half years. They met when Tom had hardly been "off the road" and was called to rehearse. He heard that they were waiting for a woman pianist, but he had his own ideas on women pianists. When Pat entered, however, he changed his mind. "She played the most—looked the most." So there you are.

Les Brown's band has offered inspiration to Tom, though his band's music has its own sound and style. Of the "band of renown," Tom says, "From a musician's standpoint, Les Brown has the cleanest sound and the swiftest band in the country. He combines a dance beat with modern ideas."

In discussing jazz, the dedicated band leader defined two terms used by jazz musicians: road men and studio men. The first pertains to performers who travel because they can't quite make the grade, due to either inexperience or incapability. The latter concerns men who are ultimate and fine musicians, such as the members of a band on television or in motion pictures. These men have usually received degrees from a school such as Juilliard and, subsequently, have ten to twenty years of steady employment.

No recordings have yet been made of Tom Miller's music, although the future looks rosy in that direction. In the meantime, the Esquires of Rhythm are making a name for themselves by their personal appearances.

Definitions For Old Terms

• ACP—FROM the Bethany College Messenger, the Oklahoma Daily and the Syracuse Daily Orange comes this new collection of college daffynities:

COED COLLEGE: Where the girls go in for facts and the boys go in for figures.

COLLEGE: A mental institution.

DIPLOMA: A sheepskin that a graduate uses to pull the wool over some employer's eyes.

GOSSIP: Letting the chat out of the bag.

HOLLYWOOD WIFE: A girl who's been married six times and never had an anniversary.

HYPOCRITE: Undertaker trying to look sad at a thousand dollar funeral.

OLD FLAME: What a girl uses to burn up her new boy friend.

PINK ELEPHANT: Beast of bourbon.

SORORITY: A male student's idea of heaven.

UPPERCLASSMEN: Students who are a shining example for freshmen . . . shining because they are all either bright, lit up or polishing the apple.

Also in the list was this example of college progression in answering a professor's question:

FRESHMAN: I don't know.

SOPHOMORE: I am not prepared.

JUNIOR: I do not remember.

SENIOR: I don't believe I can add anything to what has already been said.

MEMORY TRAINING INSTITUTE
SUITE 221-223 BOND BLDG., 1404 NEW YORK AVE., N.W.

Featured in Harvard Business Review, Iron Age, Office Executive, etc., for the past 20 years.

Dear Auntie Hester,

I am a freshman and I come from Boondocks, Idaho. This is my problem: I want to really get into the gay, mad, swirling, darling college swing, to be a well rounded, all rounded, collegiate type coed and meet those square shouldered, broad shouldered, up-right, forthright, downright, out-right college men you read about in books. But how?

I have met a few people. Going through registration some nice people asked me to come to some parties called "rush." So last Sunday I spent the afternoon in a place called Sorority hall. Some of the girls must have been in mourning—they were wearing all black—but, they were very nice, and seemed very interested in my major. I must have looked awfully thirsty for some reason because they all kept offering me a glass of water.

Since then some of them have asked me back, and Auntie Hester, what do I do now? Is a sorority for me? How can I impress them?

Gratefully yours,
Ida M. Green

Union Dance Set For Feb. 15

• "HEARTBEAT HOP" is the theme of the next Union dance, which will take place from 9 to midnight next Friday, February 15, following the Activities Fair.

In keeping with the Valentine motif, the first floor of the Union will be decorated in red and white with hearts galore. Hostesses will sport penny Valentines for name-tags, and refreshments will be sold. Tom Miller's band will play.

Intermission will feature entertainment by members of the freshman class, and will include a dance by Gregg Mayer and singing and impersonations by Lennie Metallo.

The dance is being sponsored by the Junior College under Betsy Evans in conjunction with the Student Council and the Dance Production groups.

All University students and their friends are invited to attend the dance.

Dear Ida,

I certainly can understand your situation, lost in the swirl of registration and classes, and trying to get into the swirling swing of college existence. I certainly do think a sorority is for you.

Sororities are very difficult to explain. They foster learning (by teaching you the Greek alphabet), stimulate an interest in world affairs (student politics) and sponsor humanitarian projects (blind dates).

But mostly they just have exchanges and coffee hours. And it is here that you will find an opportunity to meet those broad shouldered square, those outright

down and out college men you read about in books.

And now to get in a sorority. Be enthusiastic and let them know how enthusiastic you are. If you go in for athletics, let them know by wearing your sneakers and your high school letter sweater, carry your softball bat, or tennis racket, and be sure to explain the game to the sorority girls, so they will see how much you know. Wear all your high school pins and medals. Horse show ribbons make quite an impression worn in the hair. And above all, enthusiasm. Compliment them on their rooms, their refreshments, their teeth. Anything. Everything. Just remember "really?" and "Oh, how wonderful," and you will go far. I won't guarantee the direction, but you will go far.

But I say: "Stay loose. Be casual." If they're talking about world affairs, yawn and they will see that you are bored. Come late to parties. If you spill punch all over someone, ignore it.

If neither of these approaches works, don't fret. You can always read more books.

Sincerely,
Hester Heale

IT'S FOR REAL!

SANGAMO ELECTRIC COMPANY
SPRINGFIELD, ILLINOIS

INTERVIEWS THURSDAY, FEBRUARY 7

On Campus with
Max Shulman

(Author of "Barefoot Boy With Cheek," etc.)

THE DRESS PARADE

What will the American college student wear this spring? Gather round, you rascals, and light a good Philip Morris Cigarette, and puff that rich, natural tobacco, and possess your souls in sweet content, and listen.

As we know, college fashions have always been casual. This spring, however, they have become makeshift.

The object is to look madly improvised, gaily spur-of-the-moment! For example, girls, try a peasant skirt with a dinner jacket. Or matador pants with a bridal veil. Or Bermuda shorts with bronze breastplates. Be rakish! Be impromptu! Be devil-take-the-hindmost!

And, men, you be the same. Try an opera cape with sweat pants. Or a letter-sweater with kilts. Or a strait-jacket with hip boots. Be bold! Be daring! Be a tourist attraction!

Rock and Roll is Giving way to the Minuet

But all is not innovation in college fashions this spring. In fact, one of the highlights of the season turns time backward in its flight. I refer to the comeback of the powdered wig.

This charming accoutrement, too long neglected, has already caught on with style-conscious students all over the country. On hundreds of campuses rock-and-roll is giving way to the minuet, and patriotic undergraduates are dumping British tea into the nearest harbor. This, of course, does not sit well with old King George. For that matter, a lot of our own people are steamed up too, and there has even been some talk of revolution. But I hardly think it will come to that. I mean, how can we break with the mother country when we are dependent on her for so many things—linsey-woolsey, minie balls, taper snuffers, and all like that? She, on the other hand, relies on us for turkeys, Philip Morris, Cinemascope, and other valuable exports. So I say, if Molly Pitcher and those other Bryn Mawr hotheads will calm down, we may yet find an amicable solution for our differences. But let not our British cousins mistake this willingness to negotiate for weakness. If fight we must, then fight we will! Paul Revere is saddled up, the rude bridge arches the flood, and the ROTC is ready!

But I digress. We were smoking a Philip Morris Cigarette—O, darlin' cigarette! O, happy smoke! O, firm! O, fresh! O, fragrant! O, long-size! O, regular! O, get some!—and talking of new spring fashions, let us turn now to the season's most striking new feature: pneumatic underdrawers. These inflatable rubber garments make every chair an easy chair. Think how welcome they will be when you sit through a long lecture! They are not, however, without certain dangers. Last week, for example, Rimbaud Sigafoos, a University of Pittsburgh sophomore, fell out of an 18th story window in the Tower of Learning. Thanks to his pneumatic underdrawers, he suffered no injury when he struck the sidewalk, but the poor fellow is still bouncing and it is feared that he will starve to death.

© Max Shulman, 1937

Fashions come, fashions go, but year after year the Philip Morris Company, sponsors of this column, bring you the tastiest, pleasiest cigarette your money can buy—Philip Morris, of course!

bulletin board

• **HILLEL FOUNDATION** WILL meet at 8:30 p.m. Thursday at Hillel house to hear an address by Lewis N. Dembitz on the subject "Justice Louis D. Brandeis and American Zionism." Mr. Dembitz is assistant director of the Federal Reserve Board Division of Research and Statistics.

• **THE FACULTY WOMEN'S** club will meet at 3:45 p.m. Friday in the chancery of the German Embassy, 1744 R st., n.w. Mrs. Hanna Klep, women's affairs secretary of the embassy, will lead a discussion on the status of women in Germany.

• **THE INTERNATIONAL STUDENTS'** society will meet at 8

p.m. tomorrow in International house.

• **ALPHA LAMBDA DELTA**, freshman women's honorary, will meet at 8 p.m. Thursday in Woodhull C.

• **THE UNIVERSITY PLAYERS'** Workshop will meet at 7:30 p.m. tomorrow in Lisner A.

• **THE UNIVERSITY GLEE** club will hold auditions for prospective members from 6:30 to 7:30 p.m. tonight, Thursday night, and next week Tuesday and Thursday nights, in the Dimock room of Lisner auditorium. Places are open for all University students. The club will hold a business meeting and general sing at 7:30 tonight in the Dimock room.

Southern Colleges Grant Fellowships

• **THE UNIVERSITIES** of Alabama, Kentucky and Tennessee last week announced the fourteenth annual Southern Regional Training Program fellowships for students interested in public affairs and public careers.

Each fellowship grant is valued at \$1950, of which \$1500 is stipend and the remainder fees and tuition. The grants are open to all students who will receive their bachelors degrees in June.

The fellowships offer opportunities to serve an internship in a public agency such as TVA or a state or local government department.

Full information on eligibility requirements and other information may be obtained from the educational director, Southern Regional Training program in public administration, Drawer 1, University of Alabama. All applications must be submitted by March 9.

Job Jots

• **FULL TIME**

• **CLAIMS ADJUSTER**—For auto organization. Law student in first or second year preferred. \$3000.

• **INSPECTOR**—For government agency. Will audit company records for wage violations, etc. Economics, public administration, accounting helpful. GS 7. Woman preferred.

• **MANAGER TRAINEE** — For downtown ladies apparel store. Retail experience preferred. 1 year training program. \$75/wk.

• **PROFESSIONAL CAREER OPPORTUNITIES** — In scouting. Men between 21 and 35 to train as professionals who will deal with volunteer workers, community institutions and private organizations concerned with scouting. \$3800 or above as starting salary.

Local opportunities for graduates (or equivalent) in teaching, business administration, liberal arts, etc.

• **SECRETARY** — Interesting group of professional men doing extensive research job need a good secretary. GS 5.

• **PART TIME**

• **GRADUATE ASSISTANT**—In political science field. Man or woman. \$75.

• **ORGANIST**—For church in s.e. For 2 choir rehearsals during week plus two Sunday services. Permanent preferred; temporary considered. Salary open.

• **SUPERVISOR**—For elementary school in n.w. Sports and playground. Physical education student preferred. Hours flexible. \$1.25/hr. 12 to 3 p.m.

• **SUPERVISOR** — For teenage group of boys and girls; underprivileged group in s.e. 7 to 10 p.m. \$1.25.

• **NEEDED:** More baby sitters for placement office file; also natives speaking Spanish, Swedish, Indonesian, Rumanian. Excellent pay.

• **SENIORS:** Don't miss interviews:

Feb. 6—Motorola, Army Ballistics Agency, Sears Roebuck*.

Feb. 7—Sangamo Electric; Bureau of Aeronautics.

Feb. 8—Vitro, Chemical Division of Allied Chemical and Dye Co.

Feb. 11—Newport News Shipbuilding and Drydock, Bureau of Ordnance, Arthur Andersen*.

Feb. 12—Wright Air Development, Arma, Frankford Arsenal, Cutler-Hammer, Northwestern Mutual Life Insurance*.

Feb. 13—Near East College Assn.*, Melpar, Curtiss Wright, IBM*.

*Will interview non-technically trained.

Melpar to Interview Engineers, Physicists and Mathematicians

One Of Nation's Leading Electronic Firms Offers Unique Opportunities

Mechanical and electronic engineers, as well as those majoring in physics and math will want to investigate the unusual opportunities for rapid professional growth and advancement offered by Melpar, Inc., one of the Nation's leading electronic research and development organizations.

A subsidiary of Westinghouse Air Brake Company, Melpar is now engaged in a program of expansion involving both increases in staff and facilities. The organization's headquarters laboratory is located in Fairfax County, Virginia, only 10 miles from Washington, D. C.

No Formal Training Period At Melpar

The college or university graduate who joins Melpar is not required to undergo a formal training program. Instead he immediately becomes a member of a project group and is assigned to work with an experienced engineer whose guidance and assistance enable him to advance rapidly. Members of Melpar project groups gain experience in all phases of engineering problems by free and frequent interchange of ideas during group meetings. Such experience is valuable in leading to eventual managerial responsibility.

Financial Assistance Offered by Melpar for Graduate Work

The list of universities located near Melpar laboratories that offer graduate and undergraduate courses in engineering subjects includes: Georgetown University, George Washington University, American University, Catholic University, University of Maryland, University of Virginia, Harvard, Massachusetts Institute of Technology, Northeastern University, and Boston University. Melpar offers financial assistance for study at these distinguished schools.

Melpar Locales Offer Fine Living Conditions

Melpar's R & D operations are centered near and in Washington, D. C. and Boston, Mass. Both are rich in cultural and educational facilities. The Washington, D. C. area in which Melpar's headquarters laboratory is located is within easy driving range of beaches, lakes, mountains, as well as other recreational and scenic points. The climate allows outdoor recreation 215 days of the year. Fine homes and apartments in all price ranges are readily available.

Melpar's Boston area plants allow engineers to enjoy the pleasant tempo of New England living coupled with Boston's splendid cultural and educational advantages. Melpar pays re-location expenses.

Booklets Available

An attractive, fully-illustrated booklet describing living conditions prevailing in the Washington, D. C. area can be obtained from your campus Placement Officer.

Performance Determines Advancement At Melpar

At Melpar there is no waiting period for "automatic" advancement. Instead, an engineer, regardless of his age or tenure, may move ahead as rapidly as his skill and performance dictate. Each engi-

neer's achievement is reviewed at least twice a year. In this manner engineers deserving advancement can be quickly "spotted" and promoted. As soon as an engineer is ready for more complex responsibilities they are given him.

Qualified Graduates Offered Paid Inspection Trips

After a personal interview on their campus, qualified candidates may be invited to visit Melpar's headquarters laboratory near Washington, D. C. at Company expense. Information on opportunities available for graduates together with details on living conditions in the Washington, D. C. area is available by simply writing: Mr. William Schaub, Melpar, Inc., 3000 Arlington Blvd., Falls Church, Virginia.

Many University Courses Offered At Melpar's Main Lab

Melpar staff members, both holders and non-holders of degrees, may take advantage of the many fully-accredited courses in engineering subjects which are offered at Melpar's headquarters laboratory.

Melpar Expanding Steadily Every Year

Founded in 1945, Melpar has doubled in size every 18 months for the past 11 years. Recently it completed erection of a complete new headquarters laboratory near the Nation's Capital, and is presently making substantial additions to its Watertown, Mass. laboratory (6 miles west of Boston), and to its research department in Boston.

Located on a 44-acre landscaped tract, Melpar's main laboratories encompass over 265,000 square feet under a single roof. Fully air-conditioned, they are equipped with every facility. In addition to the new, ultra-modern headquarters plant, Melpar maintains additional facilities in Arlington, Virginia, Boston and Watertown, Massachusetts, encompassing a total of 460,000 square feet.

Challenging Openings Available At Melpar In Many Fields

Engineers who join Melpar may choose their assignments from one or more of these challenging fields:

Flight Simulators • Radar and Countermeasures • Network Theory • Systems Evaluation • Microwave Techniques • Analog & Digital Computers • Magnetic Tape Handling • UHF, VHF, or SHF Receivers • Packaging Electronic Equipment • Pulse Circuitry • Microwave Filters • Servomechanisms • Subminiaturization • Electro-Mechanical Design • Small Mechanisms • Quality Control & Test Engineering.

Members of Melpar's research and engineering staff are ably supported by many designers, draftsmen and technicians. Coordinated supporting services include a chemistry laboratory, a quality control group, an environmental test laboratory, a number of shops, and other specialized facilities.

Make Appointment Now for Melpar Interview Feb. 13th

To secure an appointment with the Melpar representative when he visits your campus, contact your Placement Officer today. At the same time ask him for booklets on Melpar and the Washington, D. C. area. We believe you will find them of unusual interest.

Coach Reinhart Elected To Helms Hall Of Fame

• COACH BILL REINHART was elected to the Helms Hall College Basketball Hall of Fame two weeks ago.

Unlike many so-called G. W. rooters who only remember what's taking place now and not what has happened in the past, the Helms Hall Board picked Reinhart because of a great career in coaching and also as a player.

His record at G. W., up to the current season, is 229 games won and 87 lost in 14 seasons. At Oregon he compiled a 79-74 mark and won the Pacific Coast Northern Division championship twice.

Coach Reinhart joins such great coaches in the Hall of Fame as Clair Bee, Adolph Rupp, Nat Holman, Fogg Allen, and many, many more.

Reinhart's career has been an outstanding one. He was born in Osborne, Mo., but was raised at Salem, Ore. After serving overseas 16 months in the infantry in

World War I, Reinhart enrolled at the University of Oregon.

At Oregon he played football, basketball and baseball and was outstanding in each sport. In the 1921 Rose Bowl game he quarterbacked the Oregon eleven which was beaten by Harvard, 7-6.

Following graduation in 1923 he became head coach of the basketball and baseball teams and assistant in football at his alma mater one year later. Reinhart remained in this capacity for 11 years before joining the George Washington staff as head coach of basketball and backfield coach in foot-

ball.

In 1938 Coach Reinhart succeeded James E. Pixlee of G. W. as head football coach and produced several good teams. He has since given up the football post and taken on the head coaching job in baseball.

During World War II Reinhart was called in the U. S. Navy and coached the Fleet City Naval team to the national service championship. He later served as athletic director at the U. S. Maritime Academy at Kings Point from 1946 through 1948 before returning to George Washington.

BILL REINHART

Coach Reinhart's best basketball team was the 1953-1954 outfit which won 23 of 26 games. It was ranked 12th in the final national poll by the Associated Press. The team won the regular Southern Conference championship and also won the Southern Conference tournament. Reinhart himself was named Coach of the Year in the conference.

Last year he guided the Colonial baseball team to the Southern Conference championship.

How You Can Gain Early Professional Recognition

Vitro Research and Development Laboratories, a Division of the Vitro Corporation of America, offers unusual opportunities for early professional recognition to young engineers and scientists. The graduating engineer who starts his career at Vitro quickly becomes a professional because of his rapid integration into practical engineering work. Upon completion of a very brief orientation program, the graduate is accorded full professional status and is given an engineering assignment on a project team.

Vitro's small team system not only enables the engineer to put his knowledge to work at once, but it quickens the pace of his professional growth by (1) availing him of experienced guidance when he requires it, (2) allowing his contributions to be promptly recognized, and (3) giving him broad, over-all understanding.

Promotion from within assures the young engineer of both recognition and advancement. This policy, coupled with our rapid expansion rate, insures an excellent climate for rewarding growth.

Our new \$2 million laboratory is nearing completion in Silver Spring, Maryland and will provide exceptionally fine facilities for our expanding operations. It will include engineering and drafting offices as well as a complete model shop and testing laboratory. Personal inspection of the Vitro facilities can be arranged during your interview with our engineering representative when he visits your campus.

An educational assistance program allows Vitro staff members to work toward a graduate degree, or take individual, specialized courses in connection with their work assignments. Full tuition and lab fees are paid by Vitro.

Check this list of "frontier" fields in which Vitro is presently engaged: (1) Undersea warfare, including new concepts in torpedoes, mines and sonic detection. (2) Guided missile ships, including projects in fire control, systems and missile engineering. Recent Vitro installations for the Navy have been in the cruisers U.S.S. Boston and U.S.S. Canberra. (3) Land-based guided missiles for continental defense.

A VITRO REPRESENTATIVE WILL BE ON YOUR CAMPUS FEBRUARY 8TH.

Make an appointment now through your Campus Placement Officer for a personal interview. Ask for pamphlets outlining company benefits, policies and other pertinent factors. Or write, in care of the Personnel Department, requesting this data.

Colonials Have 2-14 Mark With Eight Games To Go

by Bill De La Vergne

• AS THE SPRING semester gets underway, Colonial fans are hoping that Coach Bill Reinhardt's sophomores are no longer "inexperienced."

The Sophs, with 16 games under their belts, are faced with eight tough games and must play like seasoned veterans if they hope to make the Southern Conference Basketball Tournament in March.

In their last four games the Colonials dropped three and won one to bring their season record to 2-14. Against Richmond the Buff faded in the second half, after trailing by only five points at intermission, and lost 70-57.

Control Rebounds
The Colonials controlled the backboards and got off more shots than the Spiders, but their shooting wasn't too accurate as they connected on only 18 of 64 attempts. Gene Guarilla, playing his usual outstanding game, scored 22 points and picked off 13 rebounds.

Washington and Lee dealt G. W. its ninth loss in a row, trouncing the Colonials, 84-57. The Sophs had one of their worst shooting nights of the season, connecting on only 18 of 70 shots for a 24 per cent average.

From the opening whistle the Colonials trailed, and the closest they came to the Generals was at 4-2 and 10-6. Guarilla again led G. W. with 21 points on 8 field goals and 5 free throws. He and

Jack Jolly tied in rebounds with 15 each.

Ron Matalavage paced the Colonials with 22 points as G. W. posted its second victory of the season and ended its nine-game losing streak by defeating V. M. I., 79-54. The Colonials' other victory also came over the Keydets. The score was tied five times and the lead changed hands 10 times in the first half before G. W. went ahead, 29-28, with 2 minutes and 32 seconds left.

Terps Win

In the first 10 minutes of the second half G. W. expanded its lead to 10 points. V. M. I. then ran into a field-goal drought. For 9½ minutes the Keydets couldn't hit from the floor, registering only three foul shots. When the Keydets finally made a field goal, only 2½ minutes were left in the game and the Colonials had a 27-point lead.

Maryland cut the Colonial "win streak" off at one game as they romped to a 84-57 victory last Saturday at College Park. The loss was the 14th for the Colo-

nials and the second to the Terps this season.

Bill Telasky led G. W. with 17 points and Bucky McDonald and Gene Guarilla chipped in with 12 each. Bob O'Brien was high for Maryland with 27.

Play Tonight

Maryland controlled the backboards with 37 rebounds to 23 for G. W., and hit on 50 percent of their field goal attempts. The Colonials attempted only 47 field goals as a result of a fine Maryland defense and their own poor passing.

The victory virtually assures the Terps of the Big Three championship as they have beaten the Colonials twice and Georgetown once.

The Colonials play V. P. I. tonight at 8:30 at Washington-Lee High School gym. The remaining games are with St. John's at Madison Square Garden in New York; William and Mary at Washington-Lee High; West Virginia, away; Georgetown at Uline Arena; Temple, away; V. P. I. away, and West Virginia, away.

Dave Liddick Picked By the Detroit Lions

• IN DAVE LIDDICK'S case, it wasn't a question of whether he would be picked by the NFL in its recent draft meeting, but how soon he would be picked and which team would get him.

As it turned out, the Detroit Lions, NFL champions three years ago, drafted Liddick on the eighth round.

His selection came as

no surprise to the massive, 6-3, 250-pound tackle. "I had received 'feelers' from all 12 teams and had telephone interviews with six of them," said Liddick. Also, the Edmonton Eskimos of the Canadian League tried to lure Dave across the border.

"A few days before the draft meeting, Edmonton called me up, and a few hours after the Lions notified me of my being selected, they telephoned me again," commented Dave. "I'm going to try to make the Detroit team though."

For Liddick it was the culmination of a great collegiate football career at G.W. The three time letterwinner capped his outstanding play this past season by making the U.P. A.P. and Sports-writers All-Southern Conference team; was named to the honorable mention A.P. All-American team, and made the All-Sigma Chi Fraternity team (along with Don Boessler, Johnny Mayors, and Ron Kramer).

Dave comes from Halifax, Pa., a state that has produced many fine football players, both at G.W. and across the nation. He went

to Millersburg High School where he won 10 varsity letters—three each in football and baseball and two apiece in basketball and track.

In his senior year, for hitting 385 in baseball, averaging 17 points a game as center on his hoop team, winning one meet and placing second in several others in track, and making the Twin-Valley All-Conference football team, Dave was chosen as the "Best All Around Athlete" at his high school.

At G. W. Liddick is majoring in Physical Education and minoring in history. He says that "George Washington is a good school and I'd sooner go here. In a city school there's more to do, more places to go, and it's easier to make contacts. I'd pick it over a campus school."

Dave thinks that next year's football team will have a good first team but will have to develop more experienced substitute linemen (the Colonials lose eight linemen by graduation). "I think they'll do all right though."

And the Colonial gridders know that Dave will too.

Delts Take First In 'Mural Meet

by Bob Lipman

• DELTA TAU DELTA copped the annual Intramural swimming meet a few days before final exams.

The Delts scored 60 points to head the field. Kappa Sig (38), Phi Sig (34), Sigma Chi (32) and AEPi (25) followed in that order.

Nearly 90 men took part in the meet with 157 participating over all. The meet was very successful with a capacity crowd of 88 G. W. men making the best of the small facilities available to them.

Individual honors went to Tom McFadden (Phi Sig), who scored a total of 31 points. McFadden won the 50-yd. freestyle, 200-yd. freestyle, individual medley, and took third in the 200-yd. freestyle relay.

Larry Mihlon (29½) of Kappa Sig; Milt Michaelis (24) of AEPi and R. Mike Gall (16½) of the Delts placed behind the leader.

'Mural Notes: Intramural meeting on Wednesday, Feb. 13. . . . Bowling—1. Phi Alpha 2. AEPi 3. DTD and DTPi. (Ruben, Phi Alpha, high man. Golf—1. DTPi 2. AEPi 3. Sigma Nu. (Rode, Thompson, Watwood tied for low score.)
